

"Aussie Oi"

Waterline 1320 FOR SALE

'We launched our boat in February 2006 but spent a few months finishing her off and left Mackay in may 2006 for 3 years 'live aboard' cruising. We have been able to consistently maintain her and make small improvements during this time. She is all set up for cruising and can take you anywhere you want to go, offering both comfort and top performance. If you are cruising for any length of time you will appreciate some of the 'extras' we have added like the hydraulic steering, the decent sized tender with a big motor and the deck and cockpit shade covers for when you are at anchor.

Aussie Oi has 4 doubles, 2 forward and 2 aft. Galley midship starboard and head and shower midship port. Saloon and navigation on the bridge deck.

She has made several ocean crossings and has taken us on many wonderful adventures. She has been to New Zealand, Tonga, Vanuatu, New Caledonia and P.N.G. On each passage we appreciated arriving at our destination in good time, but you will already know what to expect if you are looking specifically for a Schionning. Aussie Oi has never let us down and has handled really well in some quite scary weather. She is a proven speedy ocean cruiser.

Aussie Oi is beautifully presented and priced to sell."

- JIM & KERRIE ALEXANDER

Completed hulls

Deck Cabintop, Durakore

Bulkheads, Catwalk, Daggerboards
& Cases Durakore
Forebeam, Rudders. Cedar
Rudder stocks Stainless Steel 8mm shaft and
solid insert at shear points
