

Cabin mold stripped up using durakore strips

Bulkheads, side panels and tube sockets

Galley—looking aft into berth. Daggerboard case—see left.

Aft beam socket.

Starboard hull looking from aft fwd.

The accommodation is working out really well, some of us shorter people have standing headroom in the galley and the aft bunk looks big enough for a double if you're friendly. Furniture is foam Duflex.

Note mast sockets in each hull. Cabin lying on floor.
